Go Abroad in Writing, Literature and Film

Writing, Literature, and Film degrees are ideally suited for students who wish to study abroad! Today's college graduates will live and work in a world that is more culturally challenging and globally interconnected than ever before. Education abroad provides a unique opportunity to engage the world while fulfilling major requirements or complementing the courses you take at OSU. Study post-colonial literature in Cape Town, creative writing in Rome, or Shakespeare in Sydney. Experience American literature and film from the perspective of another culture: Read Hemingway in Istanbul, or study cinema in Berlin. Complete your second language requirement: study Arabic in Tunis, French in Angers, or Spanish in Argentina. Sharpen your journalism skills with an internship in Dublin, participate in community development in Mumbai, teach English in Guadalajara, or lead women's activist workshops in Namibia. A wide array of study and internship abroad opportunities are available to Writing, Literature, and Film majors.

"What I gained from my experience in Spain was unbelievably and undeniably the most beautiful personal and educational journey I have ever experienced thus far."
-Carly DelaBarre
Santander, Spain

What types of international experiences can I participate in?

• **Study Abroad:**

Student can study abroad at a variety of international English-speaking schools where they can focus on their major requirements and interests. Students can also elect to study abroad for intensive terms to work on a foreign language. Students who achieve a high enough proficiency in another language can choose to study animal sciences in several other languages around the world.

• **IE3 Global Internships:**

IE3 Global Internships facilitate international internships for students around the world. Students can generally do an internships starting in their junior year, and most financial aid and scholarships can be used to pay for these internships. During internships, students can earn up to 12 credits per term at OSU.

• **International Degree:**

Students planning to study a foreign language may want to consider the prestigious OSU International Degree. The International Degree (ID) is a unique undergraduate major obtainable only as a second degree. In addition to the students' major requirements, the ID candidate must: (1) take an additional 32 credits; (2) demonstrate proficiency in a foreign language equal to the completion of the fourth year; (3) spend a minimum of one ten-week term abroad on an approved program (IE3 Global Internships, study abroad, or independent research projects can count for this), and (4) complete a senior thesis. International Degree students can also get special funding for their research abroad.

INTERNATIONAL EXPERIENCES CAN HELP YOU...

- Experience literature written in English from an international perspective
- Understand world literatures within their cultural and historical contexts
- Improve your second language skills
- Enhance your cross-cultural communication and critical thinking skills
- Expand your career opportunities; prepare to meet the demand for global competency in the workplace
- Explore your identity as a global citizen
- Clarify your goals through self-discovery
- Gain confidence in yourself personally and professionally

Can I afford an international experience?

Yes! If going abroad is a priority, there is generally a way to make it affordable. Early planning for international experiences helps students make cost-effective program decisions, and it also helps them prepare their finances through savings, scholarships, and financial aid. There is a great deal of variation in costs between programs, and students should carefully consider all of their options before making a decision. Students can apply financial aid and scholarships to approved international programs and, in some cases, financial aid eligibility will increase to cover additional expenses. When comparing the cost of programs abroad, be sure to look at the estimated costs of attending OSU for living and tuition. In many cases the cost of an international opportunity can be comparable or not much more than attending OSU, and the difference can be made up with scholarships or financial aid. The latest estimates for attending OSU can be found at <http://oregonstate.edu/financialaid/cost-attendance>

Will it take me longer to graduate if I go abroad?

With planning, students can complete an undergraduate degree in four years which involves up to a year of study abroad.

STUDENTS WHO CHOOSE TO GO ABROAD MAY ALSO BE ELIGIBLE FOR ADDITIONAL SCHOLARSHIPS:

- Students can apply for scholarships through the International Programs Office (\$500-\$1,000).
- Students who meet certain criteria such as studying specific languages or being from a small town in Oregon can apply for additional scholarships.
- All OSU students can apply to the OSU Research Office for URISC (Undergraduate Research, Innovation, Scholarship, & Creativity) grants to support their undergraduate research abroad (\$1,000 for 1 term; \$1,800 for 2 terms; and \$2,300 for the full academic year). See the URISC Website oregonstate.edu/research/incentive/urisc.htm for details.
- International Degree students can seek additional funding through the International Programs Office (\$1,000-\$2,000) for their experience abroad. More information about these scholarships can be found at <http://oregonstate.edu/international/degree/scholarships>
- All OSU students can apply for numerous national awards that offer bigger scholarships (\$3,000-\$20,000). These scholarships are competitive and often have early deadlines so planning ahead is essential. Contact the [International Programs Office](#) for more information.

When should I go abroad?

- **Freshman Year:** Plan ahead for a future study abroad or IE3 Global Internship while taking Baccalaureate Core courses.
- **Sophomore Year:** This can be an excellent year for study abroad, especially for students who plan to go abroad again or complete an internship before graduating. Sophomore year may also be an ideal time to complete the second language requirement. Consult with your advisor to plan your course schedule.
- **Sophomore/Junior Summer:** Students can study abroad for the entire year or a single term.
- **Junior Year:** This is the year that most students choose to study abroad or take an internship. You can go abroad for a single term or the whole year. Consult your advisor to make sure your major requirements are covered.
- **Junior/Senior Summer:** Students can study abroad or do an IE3 Global Internship.
- **Senior Year:** Students may study or intern abroad for a term or year. You may prefer to go abroad before the last term of senior year if you plan to walk in the OSU graduation ceremony. Consult your advisor.
- **Senior Summer:** Some students choose to go abroad during their senior summer. In particular, students have done an IE3 Global Internship to cap off their undergraduate career. Students can still walk in the Spring as long as they complete their coursework for graduation over the summer.

How do I select an international program?

- **Start planning now.** Begin to plan at least six months in advance of going abroad. Give yourself time to research programs and talk to advisors and students who have gone abroad to the site(s) you are interested in. It is never too early to start planning.
- **Set goals.** There is not one program best suited for all students -- there are good study abroad programs and international internships -- the best one for you depends on what you want. If you plan to study abroad, one important consideration is whether you want to study a language or focus on major, minor, elective, or Baccalaureate Core courses.
- **Prioritize your goals.** Consider your long-term academic and professional goals, as well as your on-campus degree requirements. Study abroad courses may count toward courses in your major, while internships give you elective credits that count toward the 180 required for graduation, as well as giving you a valuable professional experience.
- **Prepare academically.** You may need to take language or other prerequisite courses for your chosen program. You should also talk to your academic advisor about the timing of when you take sequences or single-term courses related to progress in your major. IE3 Internships are open to juniors and seniors, while students can study abroad as sophomores.
